

**My Accuri C6 is always available on my lab bench enabling my research which makes it unbelievably powerful.**

**Powerful.** Open the door to hundreds of applications including cell counting, viability, phenotyping, and multiplex bead analysis, 24/7, with a robust, easy-to-maintain C6 Flow Cytometer.®

**Simple.** The straight-forward C6 is small enough to fit on any bench top. It is so easy to learn that new users are producing valuable research data in less than 30 minutes.

**Affordable.** At a similar cost to a fluorescent plate reader the C6 fits virtually every laboratory's budget.

**Automated.** Free up your time. Add on the CSampler® for flexibility to process samples in plates or tubes - unattended.
