

ANAEROBIC

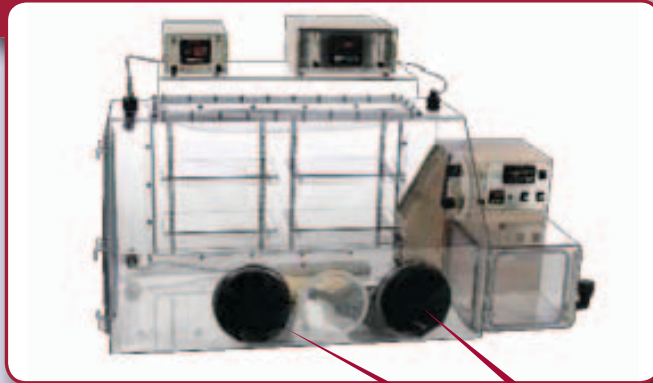

Anaerobic Chambers

- » #1 in microbiology
- » Cultivate microorganisms on solid media
- » Fabricated to rigorous standards for durability, reliability
- » Maintains 0-5 ppm O₂ standard; microaerophilic available
- » Modular design makes custom engineering easy

HYPOXIC

Leaders in Glove Boxes for Hypoxic Research

O₂ Control Glove Boxes

- » Leaders in hypoxic research equipment
- » Fully adjustable to user setpoints
- » Increase O₂ in 0.1% increments up to 60%
- » Options for heat, humidity, CO₂
- » Designed to eliminate exposure to nonexperimental conditions

Full Oxygen Control!

OPTIONAL CO₂ CONTROL

GLOVELESS SLEEVE

AIRLOCK
