

Dedicated to promoting business partnerships between Michigan and Israel

- Facilitate business and investment between Michigan and Israel for their mutual economic benefit
- Brings new business to Michigan by connecting Israeli businesses to its Michigan network
- Generates wealth, jobs and new opportunities
- Coordinates partnerships in business, education, technology and medicine
- Focuses on Israel's over 3,000 life science, homeland security, alternative energy, water technology and argo-technology for use in MI
- Utilizes Israel's engineers and scientists, which exist with more per capita than any other country

“[MIBB’s] dedication, professionalism and level of care...was amazing and second to none...giving Israeli participants the opportunity to meet giants like Ford, Magna Steyr, Takata, Aisin Visteon, Yazaki and others...”

– Uri Pachter, Business Development Manager,
Automotive & Subcontracting, The Israel Export
and International Cooperation Institute

“The MIBB arranged an extraordinary 2-day visit for us, full of meetings with hospitals, private physicians, potential distributors, and other influential people that were eager to help us. I don’t believe I would have been able to approach those people without the help of MIBB. Using an organization as professional as the MIBB was like a gift to me.”

– Hezi Himelfarb,
CEO, IceCure Medical Ltd
